

Задание 1.

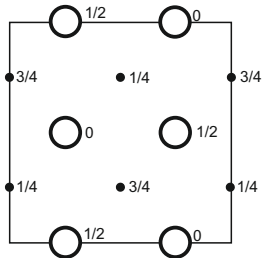

Предварительно выделив элементарные ячейки, дать полное описание кристаллических структур веществ по их проекциям. Назвать структурные типы

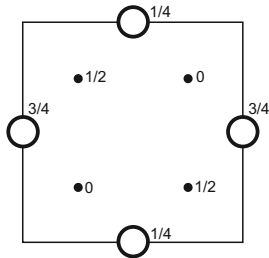

Задание 2.

Дать полное описание структур, изображенных в плане на рис.

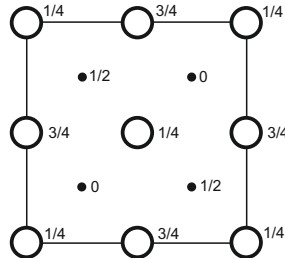

Во всех случаях трансляционные вектора $\vec{T}a = \vec{T}b = \vec{T}c$, углы $\alpha = \beta = \gamma = 90^\circ$
